SEE notice of the Bible Society.

On Monday Court will commence.

The Charleston Regatta began yesterday.

Mr. J. S. Albergotti has on hand a large supply of those cheap hams, 9 cents per pound.

THE fences and trees on Russell Street, below Market have been greatly improved by whitewash.

Rev. Wm. H. Johnson, the pastor of the Episcopal church, will officiate in that church on Sunday.

SEE notice of land for sale—rare opportunity to purchase, a good place for a small amount of money.

MONDAY next the land of the delinquent taxpayers will be sold, if not collected by the deputies who are now out.

On Saturday evening the alarm of fire was raised at the Billiard Saloon, but fortunately it was extinguished before doing any damage.

To-morrow the match game of base ball between the Athletics of Blackville, and the Orange Base Ball Club of this place, will come off.

"Carozon" is on a funding expedition in New York: If a spoiled herring and a half, cost a cent and a half, what will three spoiled herrings cost?

We hear of many planters whose stand of cotton has been so injured by the late frost, and heavy rains, as to necessitate their entire crops being replanted.

Mr. A. Fischer knows what the community needs; he has introduced some delightful summer drinks that will suit everybody. His "claret sangaree" &c., is just the thing. His assortment of segars is unexcelled by any in market.

SEE the advertisement of Mr. George H. Cornelson, who has just returned from the North with the largest and most complete assortment of good ever brought to this market. The goods are being sold cheaper than ever. See his advertisement.

We learn that Dr. T. B. Legare so favorably known in our community is about to return to resume the practice of Dentistry in Orangeburg. The doctor will probably be at his old stand by the first of June. His many friends and patrons will be pleased to hear this item of news.

A substantial collection was taken up yesterday at the Presbyterian church for the Louisiana sufferers, which Mayor Moseley will forward to the relief committee.

The present Town Council is the most efficient body that ever governed Orangeburg. They have introduced many improvements, and reduced the taxes on real estate to almost nothing.

Moses Brown the barber is still at his old stand, shaving—not notes but every body, from the heavy bearded man, who shaves to keep away a beard, to the beardless youth who shaves to get a beard.

Our worthy friend Dr. W. S. Barton has left for a trip to England, his native home; The doctor is accompanied by his grand daughter Miss A. Stokes. We wish the tourists a safe and pleasant voyage, and hope the doctor will remember the "Times" on the wing.

Wood's Household Magazine, for May has an abundance of excellent reading—There is the real go-ahead snap to this periodical which entitles it to much credit, and we cannot name one that will afford an equal amount of entertainment and instruction for so little money. The number before us contains among other articles a paper entitled "Poor Jack," by F. W. Holland, in the interest of seamen; "The Child in the Church," by Mary Hartwell; "Kin and Kad," by H. V. Osborne; "Dumb Days," by Caroline B. LeRow, and some good poetry. There are several illustrated articles, the New York Fashions, Architectural Designs, &c., &c. The illustration on Decoration Day is just the thing. Price of Magazine one dollar per year. Address, Wood's Household Magazine, Newburgh, N. Y.

One of the first business principles to act upon, is to make all purchases direct from the manufacturers, thus saving large sums of money. For this reason we advise our readers to purchase their Windows, Doors, Blinds, &c. from I. H. Hall & Co., Charleston, S. C., who have at the factories combined benefits derived from materials in first hands, skilled workman, latest improved machinery, and thorough systematic management. All windows glazed with good clear glass. They are also agents for Messrs. Roofing Felt and you will be pleased with its durability. Send for price list, circulars, &c.

THE old fashioned manner of building houses, and waiting for months for the sashes, doors and blinds to season, is obsolete. A live enterprising man who reads the newspapers, and keeps posted about matters and things, will make an estimate of what is required in the house he is about to erect, send to Charleston, S. C., to the Builders Emporium, and have all his Doors, Sashes and Blinds, ready to go in its place when the weather-boardings are put on. Messrs. I. H. Hall & Co., the Proprietors, have the most extensive stock of Building Materials and Ornamental House Work, including White Pine, and Fancy Lumber, Nettle and Nettleized Slate, Enstels, Asbestos Roofing Felt, &c. Send for price lists and circulars.

No such Machine was ever offered at any such price. 35,000 sold last year, 100,000 Families use them. Demand increasing every day where they become known. Ministers, Judges, Lawyers, Editors, Machinists, Tailors &c. recommend them as perfect. Rights given free to first applicants. If there is no agency in your place, write for it, or buy a Machine for your Family or a relation, there is none better or so cheap. Machines sent to all parts of the country on receipt of price \$10 Read advertisement beginning "\$60 saved in every Family" in another part of this paper. Address the proprietors, Robert J. HIGHLY IMPORTANT

TO

FARMERS AND PLANTERS.

AMMONIATED MUCILAGE,

FOR

Steeping and Preparing Seeds before Planting.

This preparation, lately introduced to the Agricultural world, appears from recent experiments to surpass all that has ever been attempted in that line. It not only contains all the elements and fit food for the seed in its infant state, which enables it to come up strong and vigorous, but positively claim that no rust smut or blight can exist where it is applied, and proving a certain preventive against the Potato rot. It dissolves readily, and forms a mucilage by which any material can be made to adhere to the seed. Coal Tar being a very small portion of this valuable compound to prevent the ravages of birds and insects, but so united and prepared as to form a dry powder, which dissolves readily, one pound producing one and a half gallons, or fifteen pounds of mucilage. On every farm there are to be found in abundance valuable materials for rolling seeds in before planting, which should never be neglected. These are rich dry black earth and wood ashes, or lime, and should be mixed in proportions of one part of wood ashes or lime, to three parts of earth. By the aid of the mucilage, much of this material can be made to adhere to each seed, which never fails to show good results. It has been tried on corn, rice, cotton, wheat, potatoes, peas and all the cereals with marked effect, none showing any signs of rust, blight or fungus where it was applied. Put up in one pound packages at 30 cents per pound, which dissolves and forms one and a half gallons of Mucilage, sufficient to roll seed for one acre land. 600 Planters used it last season with remarkable success.

Every Farmer and Planter should use it.
